"I've never seen such a beautiful concept store like Emporium, I really love it!" said Charles Edouard Barthes, the founder of Evidens de Beaute cosmetics at master class and treatment which was held at Emporium Port Baku on September 19th.

He was very excited to greet the guests of Emporium especially women: "Azeri women are very beautiful; I say it because I can see the perfect beauty and I like it". It was a big surprise when Charles started to speak Russian with French accent and it really sounded sweet.

After a little introduction he gave information about features of Evidens de Beaute cosmetics and his wife who inspired him for its creation. "My wife is the most beautiful Japanese woman in the world" -said Charles, and his face were blooming every time when he reminded her name. During the monologue of Charles guests enjoyed cocktails.

15 SEPTEMBER '12 (PAST) EVIDENS DE BEAUTÉ MASTER CLASS AND TREATMENT

1 / 6

To protect your real beauty Emporium and Evidens de Beaute cosmetics offer Master Class and treatment on September 19th, 20th, and 21st. Special beautician and brand founder Charles-Edouard Barthes will show you all features of Evidens de Beaute cosmetics.

Evidens De Beauté is the perfect alliance of Japanese cosmetic technology and French elegance. It's the first anti-aging skincare range specially created for sensitive skins.

Charles-Edouard BARTHES, the founder, lost his heart to Japan and Japanese beauty, and fell madly in love with the "most beautiful of Japanese women". To pay tribute to her sensitive beauty, he created the most essential skin care line: Evidens de Beauté.

Each of our creations is a veritable anti-aging treatment, enriched with an exclusive powerful complex: the Qai® (Quadruple Active Ingredients with Triple Collagen, Amino acids, Co-Enzyme Q10 and Mulberry Root Extract). Combined with the thousands years old precious virtues of an exclusive French Riviera spring water (l'Eau de La Foux), it brings astounding restructuring, regenerating, moisturizing and skin brightening effects.

Inspired by the splendor of the gardens of Grasse, where it was created, the fragrance brings the ultimate sensual touch to these in-depth skincare treatments through its floral symphony composed with rose, jasmine and tuberose flower.
